Experienced photographer looking for local (Bar Harbor, MDI, Ellsworth) female model for "G" rated test shots when trying out new equipment and techniques. These will be portraits, headshots or casual fashion.

Some sample images I've previously shot when doing this type of work are attached.

In exchange for your time (typically less then an hour) you will get copies of the images which you can use for any non-commercial purpose, e.g. in a modeling portfolio, post to social media, display on your website or send to friends. My regular charge for images like this would be around \$100.
