Looking for average girls that would be willing to do erotic modeling. I would come to you as I have no studio (any where from Augusta to Orono) and would prefer no audience. body type doesn't matter much as long as you take care of yourself, I don't like working with the Barbie doll type I prefer the regular girl. I have a decent camera set up but no lighting so a well lit room would be nice and I would share the photos with you on site if you have a laptop with matching Memory card port if not they can be emailed. these will be for my own private collection and never shared with anyone and the model will be compensated to a price we both agree to.

Please respond with a picture ....Nothing erotic is required...simply a face shot and full body shot so I can see WHO I am working with. And make sure That we do not know each other.

Discretion on both our parts is very important.

Thanks for
