I am a ghostwriter and editor. I have four books over the past year that I ghostwrote that are published or under contract. I work with everyone from celebrities to first time writers. I also write for many popular national publications. I make my living at this, which is not an easy thing to do, so no job is too small.

You are trying to write a memoir, a book of fiction, or a book of non-fiction. You are stuck and are unsure of what to do next. You need to get this book finished and find a publisher.

Let's work together. If I like what you are doing I will work for a nominal fee up front and a percentage of royalties when sold. I know how to sell books and I work very hard at it. I also write published fiction. When we are done with your book I will work hard to place your work. If you are into self publishing I have done that as well.

Email me and let me know what you are trying to write, and we can go from.
