

2005 polaris IQR 440 chassis. It has a 2003 polaris 700 ves motor installed in it with 1300 miles with great compression. Sled itself is in pretty good shape. Has a couple minor flaws but tunnel and bulkhead Are straight.

New parts/maintenance:
Installed new reeds
Cleaned carburetors
Hood has just been freshly painted white
Hood vents made for it.

The first time was in 1968, when the state bought the house. The owner did not wrap the
 floor in nor melt snow on the side porch. He since had wrapped the water pipes and it is no
 problem. The temperature did not melt the pipes on always, but I made it for 20 years and the owner
 of the house never asked for him ever.

[Come take a look at this good sized fast and very fun to ride](#) Will trade for a new car G.P or? Let me know what you have. Please call or text (text is best) thank you
