

1985 Toyota Land Cruiser Diesel (15600 USD)

Location **Maine**
<https://www.genclassifieds.com/x-282066-z>

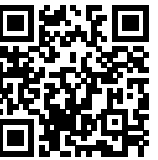

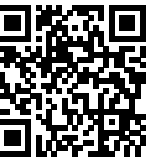

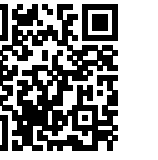

Completely Original and well maintained 1985 Toyota Land Cruiser GX HJ60 (2H) Diesel. This was imported from Nicaragua so there is virtually no rust. The frame is solid and still has original paint. The body has original paint and decals, but the clear coat has come off the hood and roof, which make it appear dull.

Aside from this being a diesel Land Cruiser it also has many other rare options including a high roof, third row seating with split windows, steps to reach roof rack (if there was one), 5 speed transmission and push button 4 Wheel drive with High/Low range transfer case.

Key Features:

- GX package
- 2H 6 cylinder diesel
- H55F 5 Speed manual transmission
- high/low push button 4WD
- Toyota split rims with narrow tires
- Heat and AC
- Only 150,000 miles (242,000 KM)

The following is a list of recent maintenance:
