Starting colts in Miles City, MT. I charge \$650, I start everything in a bosal, I don't ride anything in a bit I believe if they are soft enough to ride in a bit and have all the control in a bosal they should not need a bit. I don't ride any of my horses in a bit even my Frenchin ta fame stallion. riding in a bosal keeps you from pulling on there mouth all the time and soring up there mouth bosals work off the pressure points in there nose instead of there mouth. email me or shoot me a text if need some started or some green ones.....
