Rotating Table / Pallet Wrapper - \$500 (Hastings NE.)

I have for sale a motorized rotating table. \$500 I think it was used to wrap pallets. At one time this table had rollers across the top. Each side has hexagon holes where the rollers were attached. You can see the infeed and outfeed roller on each side of the table. This table was welded to a hydraulic lift table. I separated the two but it could easily be reattached. It has a big surface so you could set a pallet on top. This is a heavy duty unit. The table turns at eleven times a minute (11 RPM) It has a heavy gear box and heavy double chain. I think the motor tag reads (3/4Hp 1Ph) This is kind of a rare unit and would probably cost much more than my asking price. I think there could be many uses for this mechanical rotating table. Display an item, pallet wrapper, whatever etc. Call me if you have any questions. This does not include the lift table under the rotating top section.
