For sale is a Macbook Pro 13" MC700LL/A in excellent condition with only a couple visible small scratches on the bottom cover. OS has been restored to the original OS Lion. Can be upgraded to the latest free OS Yosemite although its reviews are mixed.

This model features an Intel I5 2.3Ghz CPU, upgraded 8GB RAM, and the best part - super fast Crucial M4 512GB Solid state drive. Battery lasts between 4-8 hours depending on the nature of tasks.

The current 13" with same RAM and hard drive specs retails for \$1849+tax on apple.com
I am asking only \$1050
