

Great Dane (South County)

Location **Missouri**
<https://www.genclassifieds.com/x-282221-z>

We are looking to re-home our male great Dane. He's great but since we have had our children and recently moved, we are not able to devote as much attention to him as we used to. Aside from this, he was diagnosed with heart worms in January and we cannot afford to treat him.

- He is neutered.
- Not registered but full blood mantle Merle.
- 175 pounds.
- House trained.
- Leash trained.
- Good with children and strangers.
- He does well with other animals but he is very playful (sometimes not ideal for other small dogs. Big dogs are okay.)
- 3 going on 4 years old

The right person for our boy would be willing to treat his heart worms and provide him an excellent home. We are not willing to negotiate this!
