2003 Polaris EDGE XC SP 700 w M10 Suspension and Reverse New Track (2300 USD)

New Hampshire Location https://www.genclassifieds.com/x-282286-z

Up for sale is my 2003 Polaris EDGE 700 XC SP with the M10 suspension. 90 % of the other ones listed on here have the base suspension which doesn't ride anywhere near as well! The only other one I in this shape is the 02 600 I have for sale as well. This is the only way to go when you care about a comfortable ride. The extra travel of the M10 makes long days enjoyable, and the reverse is an option again to not go without. It also helps to support heavier riders.

The sled has around 5,500 miles on it, with a fresh top end at the beginning of last season (4,800 miles). This was precautionary rather than due to a problem (it is much easier to do rings and gaskets before a problem occurs). The sled is in good shape, and the primary rider was is in his early 50's. It has a brand new \$650 track, and the suspension was just gone through as well. Yes, there are cheaper ones on here, but this is a well cared for sled, and worth every penny.

The sled starts on the first few pulls, and runs like a champ. Snow is coming, get out and enjoy it on a sled that truly!
