In honor of the regal estate, Chateau de Versailles, Louis Richard is proud to introduce the brand new Chateau men's watch. What immediately sets the Chateau apart from the crowd is the spectacular smoke silver color that cascades over the classic dial. This vivid display is complemented elegantly by the vertical Å© print, the polished silver case, as well as luminescent hands and indices. Louis Richard has taken the extra step in creating a luxurious chocolate brown genuine leather strap, with a fantastic alligator textured print, that stimulates the senses with wondrous sophisticated style.
