

Looking for Web Designer for Ongoing Projects (Hamilton, NJ)

Location **New Jersey**
<https://www.genclassifieds.com/x-282439-z>

I'm looking for an experienced web designer. Some of the projects we'll be looking to fill are several page responsive web design (for small to medium size businesses), landing page design (to drive sales from PPC, E-mail Marketing, etc.), e-mail marketing designs, display network ads, e-flyers / brochures, etc. HTML / CSS experience would be great, but isn't necessary as we have a team of developers. Please submit portfolio and hourly rates. I would prefer someone who could potentially meet in person every so often so we can be on the same page. I have office space available in Hamilton, NJ (several minutes from the Hamilton Train Station) for those interested in working in an open, professional, creative space.

Initially you will be paid as a contractor, but we will see how the relationship grows and can re-evaluate as we work.
