I am looking for someone to refinish or repaint my kitchen cabinets. The cabinets are oak. The final product should not show any grain and based on some research the paint should be sprayed on door and drawer faces.

There are 33 cabinet doors and 16 drawers. Looking for a quality job done by a professional. Please submit photos of at least two cabinet jobs.

We are located in Mebane near the Tanger Outlets, exit 154 off of 85/40.
