We're a newly formed band and we need members. All of the members so far are under 22. We're a bass player and rhythm guitarist, and we're looking for a lead vocalist and lead guitarist. We're on the east side on of Cuyahoga county and in Lake county. Our influences are pretty varied, including Black Flag, Against Me!, Fugazi, Descendents, Rites of Spring, NoMeansNo, Minutemen, Operation Ivy, NOFX, Bad Religion, Dead Kennedys, OFF!, Shellac, Minor Threat, Bad Brains and few others spanning various genres. We have a tentative list of songs we're going to cover to start off, but we are also working on originals.

The only things we ask for are that you're also located on the east side, have a really really really flexible schedule, be under 24, have some experience with working with others. We're really causal and easy going and prefer to take time to work on things while still having a strong sense of a dedicated work ethic. For the time being, we practice on weekends. We all want to take this as far as we possibly can, and try to commit to it as much as possible.

We aren't doing this to "make it" or to gain fame of any kind. We all love music and want to express ourselves. We want to contribute what we can to the world in a positive way. This isn't for money, not in the slightest. If you want a band full of people who only care about the profit they can turn from exploiting music and artistic creation, keep looking. This is about having fun and sharing it with the world. We don't see this as a job or career, this is our whole lives for us.

We're looking for dedicated musicians who are almost ALWAYS practicing and playing. Absolutely no hobby attitude bullshit. We want a Black Flag-esque practice regimen, meeting and practicing multiple times a week. We're not going to waste our time with flakes.

No.
