

3D Printing amp CAD Services (SE OKC)

Location **Oklahoma**
<https://www.genclassifieds.com/x-282614-z>

Have something you would like to have 3D printed (Olaf from Disney's Frozen, a Yoda bust, quadcopter parts, hard to find item)? Now taking orders for 3D printed objects. Currently printing on a Wilson TS 3D printer using PLA (I have red, white, green, black, and gold) and ABS (I have blue). Contact me through Craigslist for a quote.

If I don't have the color you're wanting, contact me and I will see if I can order the desired color.

For 3D printing ideas, see:
<http://www.thingiverse.com/>
<https://www.youmagine.com/>

Can't find what you're looking for or need something custom, I can draw it up in a CAD program for an additional fee.

See the pictures for a few of the items printed so far.
