I have a good working waste oil heater originally purchased new from Northern Tool for \$2500.00 that has no problem heating my 2400 sq ft shop.

Must sell. \$1200.00 or make me a reasonable offer to consider.

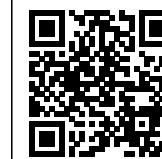

It will include a 6" exhaust elbow, a 6" tee with barometric damper which is required for installation and not included when you purchase a new one. The extra exhaust fittings included are worth \$125.00 alone.

Will include a 275 gallon IBC Oil storage tank 50% full of waste oil to get started.

No trades / Cash Only Any reasonable offer will be considered! If you don't want the waste oil storage tank we can talk about the heater only no problem.

I'm driving a lot so please Call me rather than text at four zero five area code 738-3zeronine9

Here is the info from the manufacturers website about the heater, call me with any other questions.  
 Model 120 Heat Output (BTU's) 120,000 Oil Consumption Rate 0.8 US Gallon Hour Fuel Tank capacity 15 U.S. Gallons 115 Volt Height 42" Width 23" Length 30" Weight 330 lbs. Exhaust Pipe 6" O.D.  
 Thermostat
