also have an 06 Honda shadow 750cc bobber all black straight handle bars, vance and hines exhaust (750) also has badland mirrors with gauges in mirrors just not connected yet has 19000 miles still runs strong no issues other than need updated tag and new front tire starts every time love the bike but got before I went to basics and haven't had time to go get license or even time to ride it because of college,

text preferably or email I guess be interested in trading my bobber for a sport bike or bigger cruiser

really looking to trade one for old swb and cash for the other

2500 obo prix
