I need help researching all the names and businesses associated with a business and the business owner. Pay is \$12/hour. You must be VERY internet savvy, Facebook savvy, know how to research a company, the contacts, associates, clients, and everyone the owner has ever made contact with. Would pay in person, work in a public location, probably would take about 3 hours. Very flexible timing. Please send me a brief, but specific resume that proves that you're a cyber wizard. I need the BEST. If you're better than I expect and work faster, I'll pay \$14/hour. The first hour will show me what you can do. Must discuss on phone first so I am certain you know how to collect the information I'm looking.
