Trying to find a good home for my burm. He's well tempered, 13ft and eats either 3 jumbo rats or 2 2lb rabbits or 1 5lb rabbit. It'll just be him with no cage so please have a good setup for him. Please have experience with large snakes and preferably Burmese pythons but at the very least snakes of that size. He has bitten once but it was when he was hungry and my inexperienced friend stuck her hand in his cage. He's fed in cage so must use a hook to remove but (as most large snake owners know) he's fine once out of his cage. He's actually incredibly well tempered and sweet and handled often. I am asking 375\$ or obo for him and he will come with a large heat rock. Please email or text if you're.
