I am selling a all original 1973 Gibson EB3 bass guitar that even comes with the original case although the case has seen better days for sure. The bass however still has plenty of great tunes left in her. Cherry finish in good condition and not a refin! The bass plays and sounds great and has lots of tonal options via the two humbuckers and varitone switch these basses were equipped with. Think Cream and Mountain lol. Great Bass pics upon request. I also have a 1969 EBO I would consider selling it has the rare violin headstock with a cherry finish. I Will consider interesting trades of comparable.
