osa with junebugs rescue who is now pending 501

i need a home to this girl that is 6 years and blind that was just pulled from the shelter. she has eye drops as she has glaucoma in both eyes that she gets once a day and she is great at taking it. her to she has started hw treatment and needs to go back to vet in 30 days for her final injection all included in adoption fee. she is great with other dogs and even cats and kids and did great loose in my house . . she is 100% housebroken and likes to sleep on the bed with you. she now weighs 36 pounds. when she came to us a month ago she was an emaciated 27 pounds. she likes to play with rope toys and squeaky toys . LOL. she is an awesome dog and deserves the best home

adoption fee is \$100 but negotiable to a good home. we already have spent \$700 on her and will be spending another \$500 for her treatment she also has had all her shots, spayed and is microchipped and will come with a collar and leash
