

A10010Computer Repair 45 or Less Mostly 25 (359758 USD)

Location **Virginia**

No diagnostics fee or gimmicks. No need to deal with travelling the countryside or deal with downtown/short pump traffic! Located in Richmond near Staples Mill and Hungary Rds. intersection. These prices are by the job not the hour and outline my normal repairs. I do other IT work too 24/7. Please ask about anything you don't see listed and I can give you an estimate. Too many ads say they are the lowest in town yet they add too many variables in their quotes. My prices are for the labor, I let you know price of parts, and then I fix. The end result is you are Happy. I have the tools and 6 years experience while going to college in Syracuse and at VCU through 2011 to get the job done! Very Simple. Thanks

PS-I am honest and don't elaborate the truth. Should go without saying but.....??? Also, I can SOLDER but am not a drug addict or alcoholic-checkout the techs before giving them your computer-they may be mentally unstable or criminally insane and its displayed in their ads....or their relentless postings! Have a Wonderful Day!
