The escort industry in Seattle is a booming business for young, motivated women who want to set their own hours, earn a lot of cash in a short time, and have fun in the process. However most don't know how to get started in this business all while staying safe. I run a small Seattle-based escort service where the number 1 priority is safety. If you're safe, you're going to have a good time. You set your own schedule and work as much or as little as you'd like. We provide scheduling, security and transportation. There is no contract, so at any point you want to either leave the hobby, you are welcome to do so. Or if you choose to work on your own, I will be happy to help you transition to being an independent provider.
