\$800 firm - In excellent shape.

This Honda EU2000i Companion Generator is super quiet, easy to carry and fuel efficient, making it ideal for TVs, small appliances and more. Clean, stable power allows for safe use of computers and other sensitive electronics.

As the first and only owner, used it to work in tandem with my other EU2000i. It only has about 30 hours on it, total. I'm selling the camper, so I don't need it anymore.
