I need attractive female models that can film/produce themselves. You need not be a professional videographer or own expensive video equipment,or even be a real model.I'm needing raw video clips that I will cut and edit for a film project.
The project is an wild variation of Yoko's "Cut piece" in which I'm producing for a theater in Japan.I'm running out of time and need specific content to finish this project asap.

No nudity please!

I need specifically:

Use a camera,camera phone,web-cam, or whatever you have available to film with.You can film this yourself or have someone film you doing these three things in the video..

1. rip open a button down blouse/shirt,popping off the buttons while wearing it.
2. snap/rip-off/break a necklace while wearing it.
- 3.Cut both shoulder straps of a bra with scissors while wearing it.

Use some type of emotion while destroying the clothing weather it be anger, frustration, or lust, to make the viewers believe you have a reason for destroying the clothes,and not just doing it to make money.

I'm paying \$25 per clip.I pay through paypal and I receive files through dropbox or however you can send them. I need 15 different girls and I can use 4 clips from each clip,so if you have a friend,please help me out!

need help with my marriage today! I will be on the phone all day to answer these and you will be paid to help!
