

Healthy Adult Volunteers Needed for Research Study

Location **Pennsylvania**
<https://www.genclassifieds.com/x-283212-z>

Researchers at the University of Pennsylvania Treatment Research Center are looking for people without a history of alcohol abuse or other substance abuse to participate in a research study about family history and genetics.

Participants complete an interview, a computerized test, and a personality survey, and give a blood sample.

If you are eligible, you will be paid to participate in research to help understand the causes of Alcohol Dependence.

For more information, contact Dr. Kranzler's study team
