~ IT'S A GREAT DAY FOR A MASSAGE ~

MASSAGE IS GOOD FOR YOUR BODY, MIND & SOUL.

IT RELIEVES STRESS, TENSION & PAIN.

BRINGING HEALTH, WELLNESS & HARMONY TO YOUR LIFE !!!

A VIP Massage for the VIP professional that requires the best in massage and relaxation! My clients consist of NFL players, Professional athletes, celebrities, entertainers, doctors, lawyers, business owners etc.

Don't settle for an "average" massage. Choose me as your mature female Licensed Massage Therapist!

Experience matters! I've been an LMT for over 11 yrs. I provide rejuvenating therapeutic massages to help with the discomforts, or pain, and promote health and therapy for the body's issues. I use deep tissue, Swedish, and hot stone massage for a variety of needs and effective treatment. Please call or text me for more information. I am flexible with my schedule for all appointments.

FEEL THE DIFFERENCE!

|                                                                                                                                                                                                                                                                           |                                                                                                                                                                                                                                                                            |                                                                                                                                                                                                                                                                            |                                                                                                                                                                                                                                                                            |                                                                                                                                                                                                                                                                             |                                                                                                                                                                                                                                                                              |                                                                                                                                                                                                                                                                              |                                                                                                                                                                                                                                                                              |                                                                                                                                                                                                                                                                              |                                                                                                                                                                                                                                                                              |
