Hi, this is a life sized, wearable medieval knight's helm. I bought this handcrafted helmet at a Renaissance fair for over \$200, it has a few rust spots on the top now that just need to be sanded and repainted, but I don't really feel like doing it. Display it on it's own or start putting together your own set of armor. A unique and original Christmas gift for that historian in your family. The first \$80 cash takes it: call, email or text me to set up a time to see.
