Hi families!

My name is Lindsay, and I am a college graduate living on the Eastside that has been professionally nannying for over six years now, ranging from newborns to pre-teens and up to three children at a time. I have worked for many great families in the area (mainly Clyde Hill/Medina/Bellevue/Kirkland areas), but regularly babysit for families as well in the Bothell/Woodinville area as well. I have worked with most of my families for various years, and have excellent references from previous and current families that I work for, all locally.

I most recently have been a FT nanny for a spirited 3 year old girl and a 6 year old boy in Clyde Hill. I have been with them for almost three years and love them to pieces. My schedule with them has changed due to work situations with the parents, and the children being in school full-time. I have flexibility to start with a new family as soon as needed but will also be working for my current family when my schedule allows and then beyond that when I am able to schedule them in. They know I am looking and will work with me to find the perfect situation. The mom works for Microsoft and the father is a local business owner and they want to be sure I find another great family or two to make up for my lost hours with them coming up.

A typical day with me involves incorporating educational activities with creative activities while in the home, healthy (organic/local) meal prep, laughing, games, singing, stories and outdoor play, while

keeping with a nap/household schedule that works the best for everyone. But I love being able to get out and about at least once a week to the local farm activities, local parks, the lake, Overlake Park, etc. for some time this has been a daily activity for the kids as well as a great hub for swimming, etc. I have a lot of these activities in tact, and occasional trips to the aquarium, etc. Activities are so many to list! I also am super organized, definitely keep things picked up after the kids and I, regularly keep a nanny journal where I jot down meals, naptimes, things we did during the day and so on. I encourage and help the children be responsible or helping clean up, and put away the things they play with, brush teeth, help make snacks/bake, etc. make incentive charts/lists, where we put stickers on the chart when they have great behavior, and do the things on the list, and usually take them to do something extra special when their charts are filled. But I always jump right in with the techniques and routines the families have established as well.

I have a newer safe Audi A4, full coverage insurance, car can sit up to three child seats (as long as one is a booster), and have a great driving record and experience with transport to/from school, classes and the above listed activities.

I am available for temporary, occasional care, a couple days a week positions, as well as PT/FT nannying. I also have vast experience with overnight care as well, while the parents travel. I also am available for holiday babysitting or regular evening/weekend babysitting - I have various families that I regularly babysit for and have long lasting relationships with, and it's always great to add new families/children . :)

Please feel free to get in touch with me in regards to your needs and I'd love to talk more and discuss details such as location, the children, rates and so on.

Thanks so much and Happy New Year!
