Metal guitarist looking to start an original project. I'm 31 with about 20 years of playing under my belt. Have decent pro gear and transportation. Looking to take this seriously and will take it as far as it can go. Main influences are Lamb of God, Killswitch Engage, Unearth, Trivium, and many more. Play mainly in drop-c/d. Writing style is heavy with melodic feel. Not looking to party no drugs and easy on the drink. Let me know if interested thanks for checking out the.
