I have a 9 mth old pitt/lab mix  
 she is the sweetest thing ever she love to cuddle and play  
 she is house trained and crate trained  
 she has been spayed. ..she's Utd on shots she is on heartworm flea and tick prevention (she will come with another 3mth flea and tick pill and 5mths worth of heartworm pills) she goes by the name choo-choo.  
 her only bad habit is that she likes to pee and poo as soon as she gets off the porch which you can break that habit easily I'm asking a 100 re homing fee due to spay and vaccines she gets along with other animals and kids she's been raised around my 4yr old son which is rough..call or text with any questions or
