I am offering to take one / two pets into my home until I can find them the perfect family. Potential owners will be interviewed. I will not adopt out to just anyone. They will stay with me as long as needed. I have had a lifetime of experience with many different animals. As of now I can take any type of caged animal such as Rabbit, Guinea Pig, Rat, hamsters, ferret, bird, Turtles, reptile, etc. I am also willing to take in kittens. The only thing I cannot take are dogs. All animals will be well cared for & have plenty of cage space. Cages / supplies are appreciated, but not required. Message me with info on your pet and why it needs a home. I will let you know if I have the room. Thank you!
