BestMark Is looking for short term help and they have a few small jobs to do in Richmond area. I have been with the company for two years and will say its a nice job to have when they have them available. If you are currently not working and need a bit of extra cash, its worth checking the company out. Here is a video to watch to find out more info about our company. I also have the website listed and if you decide to put in a application please use my referral ID#. I am a referral agent with BestMark and when work is available, I post to find people who need temp work. It only takes 24 hrs to find out if you are hired for the job so keep a look out in your email.
