Location **Virginia**

We are VCU film students who are producing a short film that requires a messy shed that looks similar to the photos listed in this posting. If you own a messy shed or garage and want it to be featured in our film, please contact us. We're hoping to shoot the shed scenes in the next few weeks, and will leave your property just as we find it when we leave. For further information, visit our website:

Thanks in advance for your help!
