Lost Family Cat Please help. REWARD \$100

Barn Tabby cat was lost in the Cherry Creek Townhomes around the 30th of January on I 225 and Yosemite across the highway from the Cherry Creek Reservoir. Pharo is very friendly and has a low hanging belly. His hair is short to medium length, it has grown out a bit since his last grooming. He is nurtured. Pharo has a dooney and bourke style color with a bell. He has a distinct meow that is quiet and breathy, more like a whisper than a normal cat meow. Pharo has striking Green Eyes and his chip that is up to date and has all the correct information. He is extremely friendly so he can be approached without fear of biting or scratching. If you have found pharo or have seen him please call. Pharo has a kidney condition and has been in the care of a local vet recently.

You can see in his photos he has black stripes on both his front and back legs. He has brown, gray, Black and smoke fur with a white chin. Any information regarding his whereabouts would be greatly appreciated. He is a family cat, and we just want to see him home safe.
