I will complete my curriculum in April and need a safe quiet home near a bus stop until then. I am able to pay \$400/month maybe a little bit more but also would be willing to pay 2 months in advance if were to reduce rent to \$375/month. I have been living off of the school stipend as my studies are intense and I need the time to study and attend classes. I am happy to help around your home doing odd projects you may need assistance with. I'm a hard worker and happy to help.

I have references and am available to chat on the phone and meet in person.

If you have a bedroom I may rent, please reply with the location and share a bit about your property and who I may be sharing a home with. Photos of your property are always nice too if available. Thanks
