Hi, my name is Alex. I Need a cat friendly place to live by the end of MARCH!

ME: Female, 25 years old, employed full time with no unemployment history. Does not smoke ANYTHING nor will I share a room with any one who does. Never missed a rental or bill payment. I have my own vehicle, not a slob, not a clean freak, no couch surfing friends or family members attached. Single, does not want children, on birth control.

Part time student, not into partying, no drugs, respectful of belongings, hygienically self aware. No criminal history, would share a room with a police officer if it were an option (Overall disagree with all illegal activity). Almost non-existent social life. Video gamer, internet lurker.

I have a 5 year old cat. She's litter box trained, she doesn't pee/defecate out of spite or fear. She's not loud, she's spayed, vaccinated, and declawed on her front paws. I have lived in 3 different shared living spaces and no one has complained about her. She likes dogs and actually plays fetch! She is well behaved.

I need a place, close to the south side of anchorage, ideally near Abbott road (where I work), will consider other locations but MUST be in Anchorage. Gender is not an issue, age should be close to mine 4 years younger or 10 years older ideally (21-35yrs old). Please have a steady job, no seasonal workers (Ex: snow pushers). Needing a long term.
