Hello. I am a part time photographer wanting to expand my portfolio and business. To do that I am willing to offer some great deals to a few people. If you are looking for any of the photography services below please contact me so we can discuss the details.

I have experience in weddings, senior pictures, family shots and sports photography. I would like to gain more experience with engagement/wedding, senior pictures, family or group gatherings, sports, or anything else that you might be looking for. I am open to ideas and flexible with pricing for shoots. I have VERY reasonable rates for my time and all pictures can be purchased from my website with posted pricing so there are no surprises and no minimum orders.

I also have a new in-home studio and need a few models to help me work on lighting, poses, etc. You can be 100% inexperienced as long as you are willing to put in a couple of hours in exchange for some pics you can use for yourself. I cannot pay you for your time but I will give you copies of the edited photos to use for your portfolio. I will retain the rights to use them for my business and advertising purposes also.

I am just looking to gain more experience and exposure. If you want to see some of my work please visit my website at <http://patrickwoodsphotography.smugmug.com>
