I'm looking to find someone to give me a relaxing massage once in a while. I hike and cycle on a regular basis, so I'd like to get a massage occasionally. I'd rather get the massage at my house instead of some spa facility. I'm a 35 year old clean cut white guy, and I prefer to get a massage from another guy. You don't have to be an experienced massage expert, just have strong hands to give me a relaxing massage. If interested, please email and let me know when you would be available and how much you would charge for a 1 hour massage.!
