my PR biz was just hired by a pro-legalization non-profit to organize a photo-shoot of "normal" folks smoking pot for the development of a new stock photography catalog. We're looking for a diverse cast of models who are age 35 and up and preferably somewhat "attractive". There will be a small stipend (prob. \$50). The shoot will likely be in Boulder for one or two days during the week of March 16. If interested, please send me a headshot. Models will be required to sign a release.
