

Beautiful brown fill dirt excellent quality with very few rocks (Bentonville)

Location

Arkansas

<https://www.genclassifieds.com/x-284602-z>

We are building the overpass connection at hwy 49 at exit 93 at the N. end of Bentonville just north of Lowes. We have a big mountain of good, clean, brown dirt with very few rocks. It is NOT native red dirt with tons of rock. Good enough for top soil if you add your favorite additive. We have a large bucket to load your truck or trailer. Great for your upcoming spring project. We are available for loading M-Th from 7am to 5pm. Please avoid 12pm to 1pm. Call number listed.
