Hi all,

Looking to see if people would need a ride from Baltimore area to NYC area or potentially connecticut. We do charge an economical price for the ride. We are a small business looking for clients to expand our business. You could request a one way or round trip and we can accommodate your travels. If it is you and a group of friends even better. It was tough with just one person per trip. However, it can be possible. contact me for more details and if you are looking for a travel up north. Grab you friends for a fun weekend in Atlantic City or tour NYC. Grab your family for a fun time in NYC, Philly, NJ, DE, or even CT. We can perhaps even do the New England states depending on size of the group. We have done a few rides already and customers were very pleased.
