

Bouvier Labradoodle Pups... (Glen Rock Pa)

Location **Maryland**

Mom is an AKC Bouvier des Flandres and Dad is a Labradoodle... *** I had originally stated "AKC Labradoodle" but have been corrected by Mom and the Dog community alike*** Both of these breeds are however hypoallergenic. I had not mentioned this before. This combination also makes for pure bred mutts that look like sheep dog/ little bears! Both Mom and Dad are black haired and shaggy. These 2 are very adorable all black sheep dog/ shaggy dogs that will be medium to large size. They are currently 8 weeks old and received their dewormer and distemper shots this week... Just placing this add now to see if anyone would be interested in adopting these little guys... Thanks and feel free to ask any questions...

There is currently 1 male available
