6) Strong SAS 9.4 DI tools, SQL and MS-SQL Server knowledge.

DUTIES, SKILLSETS & RESPONSIBILITIES:

The Client requires a Senior SAS DI consultant. Essential duties and responsibilities include the following, with hands-on, proven experience with SAS programming to maintain and develop advanced SAS coding techniques to write maximum efficient and performance optimized code.

Services may include focus on and require the Consultant to:

1. SAS DI Studio and/or Data Management Studio experience a MUST. Experience in Data Integration/Management Studio, developing sophisticated data flows.
2. Six years or more of SAS Data Warehousing implementation experience and experience developing technical solutions with SAS Data Integration and reporting tools in a SAS environment.
3. Data Modeling and Data Architecting expertise is REQUIRED.
4. Proven skill in gathering and documenting user requirements and writing technical specifications and design documents.
5. Integrating and managing the data mappings from the client's data sources (mainly MS-SQL Server) to the SAS Data Warehouse using SAS Data Management Solution. Designing, developing and implementing the DI Studio job flows to load the data into SAS.
6. Be proficient in Base SAS programming (DATA step), SQL programming (i.e., use of SQL pass-through or PROC SQL), as well as the SAS Macro language, ODS, Reporting and Summary procedures and SAS Array processing for use in making code more efficient.
7. MS-SQL Server DBMS experience.
8. MUST HAVE project experience with implementing advanced SAS coding techniques to optimize performance and have developed best practices for efficient coding due to constraints of hardware storage and memory.
9. Ability to develop new data loads to existing data warehouse.
10. Creating Stored Processes to provide the users of the Reporting Data Mart easy access to the data.
11. Have good oral and written communication skills.
12. Lead and/or actively participate in SAS knowledge-sharing activities.
13. Must be able to read, and understand existing coding and processing to troubleshoot and resolved issues as they arise.

The ideal Candidate will:

• Demonstrate the ability to work with little direct supervision.

• Excellent troubleshooting skills.

• Imaginative, inquisitive, with a self-motivating personality and a strong work ethic.

• Customer focused demeanor.
