

## Quality affordable music chartpart writing or digitizing (lower haight)

Location **California**  
<https://www.genclassifieds.com/x-284758-z>

Hi there. If you need parts written out, transcribed, digitized, or newly arranged for your live band to use with new players and you're on a budget, I am your guy.

I charge \$15/part, which is pretty competitive. This includes form consultations and edits from recorded material. For original arrangements by myself, you're looking at \$20/part.

Lead sheets are \$35 unless in bulk in which case the quote will be totally negotiable.

As an advanced solo/classical guitarist I am also capable of transcribing original solo guitar material. Because of the more complex nature of these kinds of compositions, I charge \$75/composition, and generally prefer a video of the piece performed so that appropriate RH/LH articulations are placed in the part. Your choice of TAB, Staff notation, Alternate tuning staff + standard tuning staff, or a combination of all three.

This price will go up once I have more than 10 projects a week, but as of right now, I'm at about 5 per week. Turnaround time is roughly 2 days (business/otherwise).

Write me an email for samples or project!
