Manhattan Copper Competiton Mods (60 USD)

Location **Hawaii** https://www.genclassifieds.com/x-284880-z

The Manhattan Clone Mechanical Mod is the first competition mod clone to hit the market. Designed for maximum performance, The Manhattan is a must-have for cloud chasers, collectors, and flavor savors. The Infinite Manhattan clone is an exact 1:1 replica with zero differences from the original. One can expect the Infinite quality and craftsmanship in buying this product.

The Manhattan measures 22mm diameter and will sit flush with any 22mm atomizer. It stands at roughly 3Â?" tall. The body is constructed out of black plated stainless steel. It utilizes a thick wall design to enhance the durability and electrical conductivity of the mod. This Manhattan holds 18650 batteries only. Also contains a powerful "rare-earth" magnet button design with a built in fail safe to ensure this mod will not auto fire when set down.
