I am a stay at home mother with two children. I am currently offering a trade of free childcare for a child between 4 and 10 years of age that is bilingual. My preference is for the childcare to be after 5pm so that my child may still attend school, but this is negotiable. The hours are negotiable.

This is the perfect opportunity for a mother who needs to run errands after work.

Expectations - for our children to play. I only ask that my eldest child be exposed to a second language at an early age (she's currently 4, but I can absolutely provide care and stimulation for older children - I have an extensive childcare background with).
