CORE MODEL DEVELOPER

Pinnacle Solutions, Inc. is seeking a highly experienced Core Model Developer for one of our Clients - a large Financial institution located in Columbus, OH or Dallas, TX or Wilmington, DE or New York City/New Jersey for a 5-month contract with possible extension, full-time, and on-site.

NOTE! Candidate - please specify desired HOURLY rate in application questions and choice of location.

DESCRIPTION

- Develop and deliver sophisticated econometric, economic, statistical or other mathematical models that meet internal and regulatory standards
- Responsible for designing, developing, building, and validating statistical models and segmentation strategies
- Performing data extraction, sampling, and statistical analyses/modeling using logistic regression, multiple regression, multivariate analysis, discriminant analysis, and neural network
- Includes use of evolving tools and methods to improve scorecard and other models through data enhancement, new characteristics and algorithms
- Responsible for Documentation and communication of modeling process and model results to business and independent review staff

QUALIFICATIONS

- Minimum 1+ years experience in developing statistical and econometrics models for measuring risk within financial institutions.
- In-depth theoretical and practical knowledge applying categorical methods such as logistic and survival analysis, solid modeling background for panel data analysis.
- Strong analytical and problem solving skills with ability to deliver quality results quickly.
- Expert in the use of software for data handling and model development.

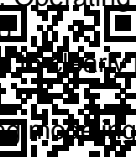

• Experienced programming knowledge in both SAS and SQL. Operating system experience with UNIX and relational database knowledge such as ORACLE, IBM DB2, A. SAS, Stat, S, etc. preferred.

• Develop, write, excel in the field oral and written communication skills. Ability to present findings and make business recommendations. Knowledge of Microsoft Word, Excel, PowerPoint, and other documents.

• Preference will be given to those with demonstrated strong modeling experience in consumer and/or business accounts and those who can understand risk drivers for consumers and/or small business accounts.

EDUCATION (Required)

- Master's Degree (Quantitative Related)
- Ph.D. Degree Preferred
