I am selling a 2008 CRF 450R that currently has 27.0 hours on the motor. The gentlemen I purchased the bike from had the hour meter installed when he purchased the bike new from the dealer. This bike is in excellent condition and has run perfect for me the entire time. I bought the bike with 15 hours on it to get back into riding and I have now decided to start racing again and I am looking to get a 2014/15 in the spring. I am very serious about maintenance and the fluids were changed every two hours, filter cleaned after every ride, and chain always kept clean and lubed. I just put a set of Dunlop Geomax 32's on the front and rear that only have 4 rides on them.

Please let me know if you are interested in the bike by email or text. I would be happy to show you the bike. It is the cleanest 2008 CRF 450 you will.
