Hello- I am visiting from Arizona and my wedding band, made of white gold slipped off my finger at Ko'Olina lagoon 2 on 3/17/15. The wedding band is not very shiny- sort of dull, and is not worth a whole lot (except to me and my wife) as it was purchased over 17 years ago. I know there are hobbyists who use metal detectors in the area. If you happen to find the wedding band I would be most grateful, and I will happily send you a \$100 reward which should be more than they would give you to melt it down. Thank.
